

Workshop – Frontend Tools

Topics:

1. Node.js
2. npm
3. Bower
4. Grunt

Steps:

1. Install Node.js
<http://nodejs.org/download/>
2. npm is installed with Node.js. There is no need to install it separately.
3. Install Bower as a global dependency by running the following command in CMD:
`'npm install -g bower'`
4. Install Grunt CLI by running the following command in CMD:
`'npm install -g grunt-cli'`
